

MMCC Public Trail System

Mid Michigan Community College's Harrison Campus sits on 560 acres of beautiful, wooded land. As a service to the community, the College and various community groups have developed trails through the property for the public to enjoy.

These trails are open all year long for walking, running, biking, snow shoeing, and cross country skiing. We simply ask that you follow the posted rules.

There are four trails that make up the trail system. The three walking/running trails are each 1 mile long and make a 3 mile loop. No bikes are allowed on these trails.

The bike trail is a rigorous 16 mile loop with multiple sections. The trail is cut into the woods and has various terrain and grades. While demanding, the trail is a fun ride for most every ability level. Walkers and hikers are also allowed on the trail.

Pere Marquette Rail-Trail

Since its opening in 1993, the Pere Marquette Rail-Trail of Mid-Michigan has been used extensively by people of all ages for walking, running, bicycling and in-line skating. It has also been used for transportation to work, shopping, and recreational events. Family use has been particularly evident, as well as use by both senior citizens and youth.

The Rail-Trail protects the historical integrity of the old Flint & Pere Marquette Railway, including its unique bridges. It provides access to rivers, parks and historical areas.

The Rail-Trail stretches from downtown Midland through downtown Clare. In 2009 another section of this trail was paved from just west of Clare through Evart, and now is paved through Reed City with plans to extend the route west. This route has been designated as US Route 20 which extends west to the Pacific coast!
